Typical Joe (John) Internet Journey

"Struggling Down And out Swipes The Secret List Building Strategies From The Guru's, Immediately Builds A Subscriber List Of Thousands For Free And Now Rakes In 5 Figure Paychecks Every Month..."

Dear Fellow Affiliate Marketer,

Please allow me take a couple of minutes to introduce myself - **My name is John** and despite my newly found success online, I was in your shoes a little over a year ago...

But once I decided to change my way of thinking from how horribly in debt I had become, to the mindset of a successful online marketer that takes **ACTION**, I soon became extremely successful.

Imagine waking up every morning to this: This is the view I see every morning as I walk just a couple minutes from my home in Sunny Singapore to the nearby seaside and beach to get in some surfing time before I get to work from the comfort of my own home. I had always dreamed of living near the sea and **I finally have the freedom to live my dream.**

Let me make one thing clear –

I'm not here to brag about my success, but rather to show you the right way to financial success...I want you to imagine what your life is like now, **but with that little something extra you have wanted forever...**

- ✓ *Maybe you want to live by the ocean?*
- ✓ *Maybe you want a new car?*
- ✓ *Maybe you just want the freedom of working your own hours so you can drop that J.O.B. and tell your boss to shove it?*

Whatever your motivation, Imagine coming home everyday and seeing that you brought in hundreds, or even thousands in commissions while you were out...

Here is my story of how I went from a broke, down and out guy, to consistently doing great online.

I have been a changing job rather frequently, you might say I change job so often like changing pants, shirts whatever...you got my drift?

Time was hard and bad, and it only got worse when I lost my J.O.B. sometime back

During the previous 6 years, I had been playing around with affiliate marketing, but never looked at it very seriously. As my saving began to dwindle, I was forced to find another way to make a living. When my times becoming really tough and unbearable, it's time to do something, desperate time calls for desperate action! and I really started looking to online marketing as a serious alternative as the best methods to generate at least a decent living and hopefully a great income, income I had just lost.

I struggled For Years!

As I mentioned above, I am a single father and have been chasing my dream of working full time as an online marketer for many years but could never find the right formula.

I would watch as these "Guru's" showed proof of their **HUGE** Clickbank paychecks, while I struggled each month, just to make a few sales, if that...

I bought every system under the sun, trying to find something that worked. I would generate a few sales here and there but nothing life changing. I finally realized that I had been going about everything the wrong way. In the past, I never once built a list.

I generated free traffic to my sites and hoped they would click through my links and buy whatever it was I was selling. This is the **WRONG** way to run your affiliate business.

Maybe this is how you currently generate sales, and maybe your very successful at marketing this way...But what if your system fails and your sales start to dwindle, or don't come in at all?

Why would you give yourself only one chance to make a sale? I wish I had an answer for this but for most affiliate marketers, this is exactly how they do it. So I started trying to build a list of subscribers, but as most of you know, list building is not an easy task. You still need to find the traffic and send it through your squeeze pages. It's a lot of work.

Secret Strategies Were Uncovered!

Then, a little over a year ago, while sweating over tough time and stress of being a down and out and how much longer am I able to have a house to live in, **I stumbled across a list building/email marketing blueprint that contained strategies I don't think were ever supposed to be leaked.**

I thought this was just another lame system to keep me moving in the wrong direction. This system seemed completely off the wall & totally different from everything I had ever tried, or read about in the past. So, I decided to give the methods a shot & began testing out these strategies. I really didn't expect the results that came rolling in soon after...

No More Sleepless Nights...

My list exploded by the thousands without even lifting a finger or doing any marketing of my own. I couldn't believe my eyes!

What was even more awesome about the system I had uncovered is that these strategies required:

- ❑ NO P.P.C. (pay per click)**
- ❑ NO PAYING FOR ADVERTISING**
- ❑ NO PRODUCT CREATION**
- ❑ NO S.E.O. (search engine optimization)**
- ❑ NO BULK ARTICLE WRITING**
- ❑ NO TWITTER**
- ❑ NO SAFE LISTS**
- ❑ NO MLM**
- ❑ NO HYIP**
- ❑ NOT LIMITED TO THE 'MAKE MONEY' NICHE**
- ❑ NO EXPERT KNOWLEDGE**

I finally had a breakthrough...So I fine tuned these fail proof methods and completely solved all my financial worries for good!

P.S. Just to say Thank You for picking up this report today, I want to give you a very quick, very simple method that will begin adding subscribers to your list almost immediately.

This method is extremely deadly, as well as, extremely overlooked, even by many of the Guru's despite it's simplicity & it doesn't even touch Email Marketing Magic Blueprint Package so Don't miss out!!

I'm not going to get into any of the fluffy details here, just give you the steps.

Ok, here's what you need to do:

Firstly, if you haven't signed up at clickbank.com, sign up now. Pick products to promote that look good with good sales copy and good commission payouts. Next, create a review of each of the products you plan to promote.

If you already have products you are currently promoting, go through every blog, website, marketing forum, etc. that you have your affiliate links and do the following:

1. Create a simple squeeze page offering your audience a free pdf report or any other type of free gift within that particular niche. If you don't own a website yet, you can create your squeeze page for free on any number of free sites, such as <http://www.weebly.com> or just add an opt in form onto a free blogger blog.

- 2. Upload your squeeze page to the net.**

3. Replace all your affiliate links with the link to your squeeze page.

Once your targeted traffic clicks through & subscribes through your squeeze page, forward them directly to the affiliate product(s) of your choice.

By sending everyone directly through your squeeze page first, you might not generate as many click through to your affiliate offers as you had before, but you will in turn get rid of all the lookers by forcing them into your sales funnel, and begin to build a very targeted list of action takers you can now begin to promote to whenever you want.

Enjoy...

Hope this simple yet powerful ebook can contribute to your well being and success!

And let you gain great insight and may your life transform much better and freedom in time and financial!
